Jayne – yeah I think that would help. Ivan can forward it to all those he thinks would need to be there.

If you want, I can set up a doodle poll so folks can complete their availability and we can choose the best date and time. Would that help?

Jayne

Jayne – have not heard anything from Ivan on this. My last understanding was that he was going to contact several people he thought should be included in this meeting, find times and get back to us. Ideally I could meet with him next Monday when I head for Oregon. I will send him an email today and see if that's possible otherwise it will have to wait until the week I get back.
